Full Stack Developer

Aspiring Software Developer with CDAC training and a strong understanding of programming fundamentals, data structures, and backend development. Skilled in Java, MySQL, and modern development technologies, and eager to contribute to software development while continuously learning and growing in a professional environment.

PERSONAL DETAILS

Date of birth
08th December 1994

Gender
Male

Marital status
Single

Languages Known
English, Marathi, Hindi.

Address
Ishwarpur, Sangli 415401

Technical SKILL

- **Programming: Java, C++**
- **Backend: Spring Boot, .NET**
- **Frontend: React.js**
- **Database: MySQL**
- **Version Control: Git, GitHub**
- **Concepts: Data Structures, OOP**

STRENGTH

- Believe in teamwork and co-operative.
- Smart working, quick learner and adapts to new environment easily.
- Punctuality & Patient
- Computer and analytical skill
- Communication Skills

PROFESSIONAL EXPERIENCE

Junior Data Analys May 2022 to April 2025
F2ROOT Engineering and Services Pvt. Ltd.

***Responsibilities**:*

- Performed **data collection, data cleansing, and data validation** to ensure accuracy and consistency of engineering project data.
- Conducted **data preparation and basic data analysis** to support project documentation and reporting. Review.
- Maintained structured project records and **generated reports for internal team review.**
- Collaborated with project teams to **organize and manage engineering data for analysis and decision making**.

PROJECTS

1. Safar Saathi- Travel Companion Web Applications

Technologies Used: Java, Spring Boot, MySQL, React.js
GitHub: https://github.com/Patilshubham08/SafarSaathi-Backend.git

SafarSaathi Travel Organizer Web Application Developed a full-stack Travel Organizer web application (SafarSaathi) using React for the frontend and Java with Spring Boot for the backend, following MVC architecture and design principles. Designed and consumed RESTful APIs secured with JWT-based authentication and role-based authorization. Implemented core modules including user management, travel packages, bookings, and payments. Utilized MySQL for data persistence, MUI and Framer Motion for a modern, responsive UI/UX, Postman for API testing, and implemented logging and monitoring for debugging and performance tracking

2. Detection of Faults in Ball Bearing Using Vibrational Analysis

The project focuses on identifying faults in ball bearings by analysing their vibration signals. Bearings are critical parts in rotating machines (motors, shafts, turbines), and any damage can cause breakdowns or machine failure. This project uses FFT (Fast Fourier Transform) vibration analysis to detect: Inner race defects, Outer race defects, Ball defects, Lack of lubrication, foreign particle defects

ACADEMIC QUALIFICATIONS

- **Post Graduation Diploma in Advanced Computing (PG-DAC)** Feb (26)
  CDAC, Pune
- **Bachelor of Engineering** (May'17)
  Annasaheb Dange College of Engineering and Technology, Ashta (Shivaji University)
- **Higher Secondary Certificate** (60%) (Mar'12)
  Vidyamandir High School and Jr. College, Islampur (Maharashtra Board)
- **Secondary School Certificate** (86%) (Mar'10)
  KBP, Walwa (Maharashtra Board)

I hereby declare that above information is true to the best of my knowledge and I bear the responsibility of above- mentioned particulars.
